PEACE HERE.

Il Possibility or Probability of a Strike Passed Away-Our Workingmen Content and Happy.

Remonstrance against Thoughtless People Characterizing Workingmen as Lawless and Vicious-A Sad Case.

All possibilities of a strike in this city have passed away. The Appeal has already published the agreeable result of the interview between Manager M'Ohee and the employes of the Memphis and Charleston railroad company. The commendable course of Colonel M'Ghee is generally indorsed by all who appreciate the merits of the case and recognize the value of the tolling masses. We regret to learn that the unthinking few impute to our workingment unlawful and mpute to our workingmen unlawful and vicious motives. Yesterday a railroad employe asked us to say that this was not true, that the workingmen were the friends of law and orler, and at all times ready and willing to as sist in the protection of property, whether private or public, and in the defense of life. this we cheerfully do, because from carefu inquiries and investigation, irrespective of personal knowledge, we are confident that the employes of the Memphis railroads, as well as workingmen generally, are peace-ful and law-abiding, being the last of all others to incite riot and induce outrages. A man who works for himelf and family is not easily induced to destroy

his means of support. However humble the work, there is in it a dignity well worth the fidelity of duty which it inspires. Because men work, or are employed en railroads, it is no sign that they are passive criminals, ready and eager for an opportunity to gratify their vicious tastes and indulge their figure passions. The man who continued their figure passions. teir fierce passions. The man who condemns the laborer in this manner belies him-self in every utterance. In this connection it is well to state that one-half the dissatisfaction among railroad men is caused by the in-human and infamous practice in which the officials of the companies engage. For in-stance, when Richard Roe or John Doe is dismissed from the service of a company, particular pains are taken by the department official to brand his character as unworthy of respect, and hold him up as a dishonest or capable man. This is carried too far, and f railroad officials would take more pains to accommodate the public, illstead of hounding unfortunate men to the point of desperation and starvation, the country would be better

and starvation, the country would be better off. More than two years ago a well-known railroad official was approached by an engineer at Grenada, Mississippi, and asked why he had pursued him so bitterly. This engineer had been dismissed from the service of the Mississippi Central railroad, and in the Interview at Grenada, he said to the official: "I have a helpless mother seventy years of age who is dependent on me for her bread. You have taken this bread from her mouth and made me a pauper. for her bread. You have taken this bread from her mouth and made me a pauper. I merely wish to say, that I will kill you ere she die." The official, startled by this announcement, assured the engineer that he had not caused his discharge, and to evidence his good will, gave him a letter of recommendation. The engineer obtained a position on the Memphis division of the Louisville and Nashville and Great Southern railroad. When his death was announced for he was family, of Memphis, have been spending several days in our city.

the unwarranted and unrelenting oppressions of capital had driven him from his position, which he filled with credit, and was about to reduce him to penury and want. Not only this, his mother, old and feeble, and almost in the grave, was to be denied her bread, because of a corporation's tyrannical ruling; and so very often are good, honest men made to do wrong by the oppressions which unfeeling capital and selfish wealth are so prone to exercise. But we are glad to know that the railroad men of Memphis are now satisfied. They have no occasion to strike.

They first stabbed him forty-seven times, and then finished the fiendish work by knocking out his brain with an ax. The cries of Mr. Shields aroused a lady and boy, who lived near, and they ran out and witnessed the last scene in the bloody tragedy.
